EDUCATION

B.Tech(CSDS)	2023-2027	NSUT (Main Campus)	7.94 CGPA
CBSE (Class XII)	2023	Siddhartha Public School, Delhi	90.8%
CBSE (Class X)	2021	Tagore Public School, Haryana	94.6%

EXPERIENCE

- **Business Analyst Intern | Outlook Publishing India | New Delhi** **May 2025 – July 2025**
 - Built interactive **Power BI** dashboards for subscriber, revenue, and campaign analytics, automating weekly reporting and reducing report preparation time from **2 hours** to **40 minutes**.
 - Analyzed customer and sales datasets to identify growth opportunities, presenting actionable insights through visualizations that supported marketing strategy and business planning.

PROJECTS

- **PDFTalk - AI-Powered Document Intelligence Platform** | [GitHub](#) | [Live Demo](#)
 - Built a RAG platform using **FastAPI**, **PostgreSQL + pgvector**, and **OpenAI** embeddings for conversational PDF Q&A with automatic OCR support; achieved **80% retrieval accuracy** on an automated LLM-as-a-Judge evaluation across **100 questions** spanning **10** documents.
 - Developed an asynchronous document ingestion pipeline using **Redis RQ** for OCR, chunking, embedding, and indexing, processing **300 PDFs** with **40s P50** and **70s P95** ingestion latency.
 - Automated CI/CD deployment, testing, security scanning, and production monitoring with **GitHub Actions**, **Prometheus**, and **Grafana** for a containerized application deployed on **AWS Lightsail**.
 - **Stack:** FastAPI, PostgreSQL, pgvector, Redis, RQ, OpenAI, Next.js 16, TypeScript, AWS S3, Docker.
- **Resumint - AI-Powered Resume Tailoring Platform** | [GitHub](#) | [Live Demo](#)
 - Architected a modular backend using domain, application, and infrastructure layers with dependency injection, enabling LLM providers to be replaced without modifying logic.
 - Built an asynchronous PDF generation pipeline using **BullMQ** and **Redis**, offloading *pdflatex* compilation to background workers while keeping the API responsive under concurrent requests.
 - Built a multi-stage AI workflow using **DeepSeek LLM** to parse job descriptions and generate STAR-based resume bullets, reducing resume tailoring effort per application.
 - **Stack:** Next.js 16, TypeScript, Hono, Prisma, PostgreSQL, BullMQ, Redis, DeepSeek LLM, Better Auth, Zustand, Render, Vercel.

ACHIEVEMENTS AND EXTRA CURRICULAR ACTIVITIES

- **LeetCode:** Solved **400+** algorithmic problems, including **200+ medium** and **80+ hard** problems.
- **JEE Mains:** Secured **All India Rank 13,006** among **1M+** candidates.
- **AWS Cloud Practitioner Training** - GeeksforGeeks.
- **Full Stack Web Development** - Udemy.

TECHNICAL SKILLS

- **Programming Languages:** C++, Python, TypeScript, JavaScript, SQL
- **Backend & APIs:** FastAPI, Node.js, Express.js, REST API, JWT Authentication.
- **AI/ML:** OpenAI API, DeepSeek, Retrieval-Augmented Generation (RAG), Embeddings, OCR Pipelines.
- **Databases:** PostgreSQL, pgvector, MongoDB, MySQL, Redis
- **Async & Queues:** Redis Queue (RQ), BullMQ, Asynchronous Job Processing
- **DevOps & Testing:** AWS (S3, Lightsail), Docker, GitHub Actions (CI/CD), Prometheus, Grafana, Pytest.
- **Course Work :** Data Structures & Algorithms, OOPs, Computer Networks, Operating Systems, DBMS.
